Maintenance Management Program

A new level of control over fleet maintenance expenses

GM Financial's Maintenance Management program is designed to provide fleet managers with tools for streamlining fleet maintenance operations and improving fleet performance.

Comprehensive Coverage

Keep your costs low and your drivers on the road.

- **Highly Customizable:** Set your own cost control repair limits over a range of variables, including at the individual or auto-approval level.
- **Shop Locator Tool:** Save time finding the best local repair shops in your area by plugging into a nationwide network of shops ready to work on your vehicles.
- **Real-time Insights:** With instant visibility into your fleet's maintenance needs, you can identify trends and make data-driven decisions that reduce the risk of breakdowns and costly repairs.
- **Reduce Downtime:** Improve your fleet performance and maximize uptime by ensuring vehicles are in optimal condition.
- **Compliance:** Stay up to date with federal and state regulations with automated maintenance alerts that free up your time and focus for other important tasks.
- **Robust Training:** From on-demand FAQ and video content to one-on-one onboarding training from GM Financial and Fleetio, you'll always have the answers and knowledge you need.

Key Features
